STAEDTLER's triplus® Marker Range Shapes up to be a Hit

February 2015

The NEW triplus range includes Permanent and Dry Erase Markers in 2 sizes: fine bullet point and broad chisel point, with black, blue, green and red ink. A chisel-tip highlighter is available in yellow, pink, orange, green, blue and violet.

As always, triplus features comfortable triangular barrels. An added feature is a convenient hanging loop.

Attach them on a carabiner or hook them onto a backpack and they will be ready and handy at a moments notice.

Vivid colors are low in odor, quick drying and fade resistant. Certified AP non toxic (ASTM D-4236).

Available in dozen boxes, single and multi-pack assortments.

STAEDTLER-Mars Limited

5725 McLaughlin Road, Mississauga, ON L5R 3K5.
