FOR IMMEDIATE RELEASE

Koleksiyon to Showcase Vis at NeoCon® 2016

The Turkish brand has enhanced the product line with the introduction of a curved model

Chicago —April 2016— Koleksiyon, a leading international office furniture manufacturer, will be returning to NeoCon June 13th-15th after making its North American debut at the trade show last year. The company is back with an updated suite of products, including a curved version of Vis, the brand's popular geometric storage system.

Vis, designed by Studio Kairos for Koleksiyon, is a lightweight and modern cabinet built on adjustable horizontal and vertical shelving planes. The unit is fully customizable—during the install process, the designer can alter each zone within the cabinet. For a pop of color, the vertical shelving panels are available in a variety of hues to coordinate with other furniture. Additionally, Vis is multifunctional: the unit can act as storage, a display piece, or a partitioning element within an office space.

Koleksiyon designed Vis to go above and beyond the standard for office storage systems. Its bold geometric shape, paired with vibrant color options, make this product a centerpiece in any office space. The adjustability of Vis' shape gives the user power over the aesthetics and display of their personal items and decor. New for 2016, Koleksiyon is launching a curved edition of the product, adding additional design and layout flexibility.

Vis will be on display at NeoCon along with Koleksiyon's other modern workplace collections. Visit the Koleksiyon showroom in the Merchandise Mart on Floor 11, Space - #113A.
