

ErgoErgo
NeoCon 2016
Showroom 324a

ErgoErgo is a revolutionary seating concept combining the benefits of active sitting with bold contemporary design.

Our bodies were made to move. ErgoErgo awakens your body, relieving back strain by allowing movement, optimal pelvic tilt, and spinal flexibility. It improves core strength, circulation and breathing. And because movement sends more oxygen to the brain, you're more alert and productive.

ErgoErgo is intelligent design. It promotes wellness and fitness, and productivity. And it's comfortable, durable and easy on the budget

ErgoErgo is perfect for offices, schools, hotels, libraries, dorms, healthcare facilities... the possibilities are endless. ErgoErgo is fun public seating. And it's compact enough for the smallest space. Made in the USA of recyclable techno polymer.

ErgoErgo now comes in 3 sizes:

Kids Ergo - pink, orange, yellow, green, blue, purple

ErgoErgo- orange, blue, black

Extra Ergo - black, white, red

After sitting on ErgoErgo, ordinary chairs seem...well, just ordinary. It's ergonomic, ergo — it's good for your body. It's ErgoErgo.
