FOR USE UPON RECEIPT — 2016

MAGNUSON'S NEW RECYCLING RECEPTACLES ARE THE "PIC OF THE LITTER."

New Product Introduction: PIC Recycling Receptacles — an exceptionally versatile family of colorful, contemporary design waste and recycling receptacles.

Design: Studio Manade, Paris, France

Manufacturer: Manade of France. Distributed and marketed throughout North America exclusively by Magnuson Group.

Product Applications: **PIC's** rectilinear, architectural designs are suitable for wide-ranging use in numerous market segments, including corporate, healthcare, government offices and public spaces; higher education offices and facilities; upscale retail and other public-space interiors.

Product Description: PIC Recycling Receptacles are available in five different configurations: single, double or triple 16-gallon units and single or double 24-gallon units. They can be used individually or grouped, moved and regrouped as user needs and spatial traffic change.

Construction & Finishes: Each **PIC Recycling Receptacle** is manufactured from epoxy-coated steel, and is 100% post-consumer use recyclable. Colorful, removable lids for waste, paper or cans are standard; all units come with internal bag rings. A counter-balanced, magnetic, swinging lid is optional.

PIC bodies are available in white or silver; tops are available in Black, Blue, Green, Red, Silver, Chocolate or Yellow. Also included are optional adhesive labels identifying different types of waste.

PIC-60 — a single compartment model with a capacity of 16 gallons, stands 26-15/16" high X 11-7/8" wide X 11-7/8" deep and weighs 15 pounds.

PIC-2x60 — a double compartment model with a capacity of 32 gallons, stands 26-15/16" high X 23-5/8" wide X 11-7/8" deep and weighs 31 pounds.

PIC-3x60 — a triple compartment model with a capacity of 48 gallons, stands 26-15/16" high X 35-5/16" wide X 11-7/8" deep and weighs 50 pounds.

PIC-90R — a single compartment model with a capacity of 24 gallons, stands 26-15/16" high X 17-11/16" wide X 11-7/8" deep and weighs 22 pounds.

PIC-2x90R — a double compartment model with a capacity of 48 gallons, stands 26-15/16" high X 35-5/16" wide X 11-7/8" deep and weighs 50 pounds.
