

Jim Kauber teaching the Precision Reloading & Shooting Class at The SITE, Mt Carroll, IL.

October 2019.

Featuring Forster Products Reloading tools

RELOADING WORKSHOP

Top left:
Newest Forster ProStaff Member, Lara Spanic, her father, Ian, & Dean from The SITE

Above & left:
ProStaff Member, Rich Machholz (ballistician), teaches the art of fine-tuning precision rifle loads.

Rod Hartman, co-owner at Forster Products, explains Co-Ax® Reloading Press' ease of use

Forster Products tools on the Reloading Bench:

- Co-Ax® Reloading Press
- Full Length Sizing Dies
- Ultra Micrometer Seater Dies
- Primer Seater
- Datum Dial Ammo Measurement Tool
- Primer Tube Loader
- Bench Rest® Powder Measure

Students were fascinated by New Zealander, Alex Findlay's, AMP (Annealing Made Perfect) tool.

Upper left: Scott Kempel, Forster Products' Operations Manager, chats with Kelly Bachand.

- Forster's Co-Ax® Reloading Press allows you to
- Decap spent primers
 - Size cartridges concentrically
 - Seat bullets straight

Forster Pro-Staff Member, Kelly Bachand, demonstrating the Primer Seater & Primer Tube Loader. Thanks, Kelly, for flying in from Washington State!

Lara Spanic, 2024 Olympic hopeful and newest Forster ProStaff Member!
Teaching shooting technique.

Sharing insights and tips in Jim's classroom, which is located a few feet from the 600 yd firing line.

600 yard beautifully maintained range
