Huntworth's Men's Stealth Shooters Gloves Provide Warmth Without Inhibiting Dexterity

Pittsburgh, PA (December 15, 2019) – Huntworth® continues to exceed expectations of quality and price with the addition of a new Stealth shooters glove to its extensive line of hunting clothing and accessories that feature innovative technologies, forward thinking designs and the performance and durability to help hunters be successful.

The new #1345 Men's Stealth Shooters Glove allows for top performance in cool, Fall conditions. Flexible 4-way Actistretch knit fabric conforms to the hand offering optimum dexterity. The gloves are fully lined in soft fleece to wrap the hands in comfortable warmth. To protect from the elements and manage interior moisture, a Hydrashield® Waterproof breathable insert is combined with a durable water repellent finish that sheds moisture. A comfortable fleece banded cuff inhibits cool air from encroaching at the wrist. A pocket is available on the backs of the gloves for a standard heat pack for easy access and quick refills. Microban® antimicrobial product protection on offers scent reduction. A tacky silicone print palm provides an enhanced grip on weapons. A conductive index finger and thumb allows for easy use of touch screen devices like cell phones and tablets which enable shooters to utilize ballistic apps at the range or make necessary calls.

This garment features Tarnen™ camo, the latest advancement in camouflage from Huntworth. The organic elements of Huntworth's proprietary Tarnen camo pattern enable hunters to blend into their surroundings. Tarnen provides superior concealment by using forms found in nature, distorting them to introduce randomness and adding layers for visual depth.

“Warm and waterproof, these Stealth Shooters gloves allow your hands to remain at the ready,” explained Neal Ash, President and CEO. “Whether you're hunting or at the range, you can take a more accurate shot with warm, comfortable hands.”

The #1345 Men's Stealth Shooters Glove features Huntworth's proprietary Tarnen™ camo pattern and are available in men's sizes M, L and XL. Suggested retail price for the gloves starts at \$24.99.

Look for the new Stealth Shooters Glove from Huntworth® at your favorite outdoor or online retailer in August 2020. For more information, visit HuntworthGear.com
