**Give Cold Weather The Cold Shoulder With  
Huntworth's Men's Heavy Weight Bonded Soft Shell Jacket**

Pittsburgh, PA (December 15, 2019) – Huntworth® continues to exceed expectations of quality and price with the addition of a new heavy weight bonded soft shell jacket to its extensive line of hunting clothing and accessories that feature innovative technologies, forward thinking designs and the performance and durability to help hunters be successful.

The new #9367 Men's Heavy Weight Bonded Soft Shell Jacket is engineered to help hunters perform during cold weather hunts. Everything from the standing collar with chin guard to the drop tail hem with integrated, adjustable cordlocks is designed to encapsulate body heat for enhanced comfort. InVelvet® fleece is bonded to a waterproof breathable film and thick Sherpa fleece for a combined weight of approximately 370g. Microban® antimicrobial product protection treatment on the bonded Sherpa fleece provides the scent reduction that hunters desire. A durable water repellent finish sheds moisture and light snow. Tailored arm construction allows for smooth, easy movement while drawing a bow or climbing a tree stand. Convenient, secure storage is within reach with two zip chest pockets, two zip hand pockets and two interior stash pockets. A safety harness access hole is available at the back of the full zip front jacket.

This garment features Tarnen™ camo, the latest advancement in camouflage from Huntworth. The organic elements of Huntworth's proprietary Tarnen camo pattern enable hunters to blend into their surroundings. Tarnen provides superior concealment by using forms found in nature, distorting them to introduce randomness and adding layers for visual depth.

"Huntworth's new Heavy Weight Bonded Soft Shell Jacket keeps hunters warm and ready," explained Neal Ash, President and CEO. "Even though they can see their breath, hunters will be able to wait silently and patiently for the buck they've been watching on their trail cam."

The #9367 Men's Heavy Weight Bonded Soft Shell Jacket feature Huntworth's proprietary Tarnen™ camo pattern and is available in men's sizes M, L, XL and XXL. Suggested retail price for the soft shell jacket starts at \$149.99.

Look for the new Heavy Weight Bonded Soft Shell Jacket from Huntworth® at your favorite outdoor or online retailer in August 2020. For more information, visit [HuntworthGear.com](http://HuntworthGear.com)

## **About Huntworth®**

For years, the designers at Huntworth® have been creating great fitting and functional apparel and accessories. Our in-house product design team works relentlessly to integrate cutting edge design elements, crossing over from other extreme sports for a next-gen approach to hunting apparel. Our mission is simple: ruthless innovation and performance. Huntworth continues to exceed your expectations in both quality and price. [HuntworthGear.com](http://HuntworthGear.com)
