## **AGM Global Vision is proud to introduce the most technologically advanced lineup of Thermal Imaging, professional grade Night Vision, Multispectral Lasers and Infrared Illumination at the 2020 SHOT Show.**

**Springerville, AZ** – AGM Global Vision (AGM) is proud to announce the release of several key products to existing line at the upcoming SHOT Show 2020 (Booth #653). Hosted by the National Shooting Sports Foundation (NSSF) the SHOT Show is the premiere firearms exhibition in the US. Located at the Sands Convention Center January 21<sup>st</sup> – January 24<sup>th</sup>, 2020, an anticipated 70,000 attendees will attend. AGM, a rising leader in the night vision and thermal technology industry, is known for producing rifle scopes, clip-on systems, monoculars, binoculars, goggles, infrared illumination devices and other electro-optical systems.

### **NEW TO THE 2020 AGM LINEUP ARE:**

- **AGM Python-Micro Thermal Imaging Rifle Scope**

Developed for hunters and shooting enthusiasts, Python-Micro is available in 2 different sized objectives. Lightweight and compact device, this dedicated thermal scope offers the highest resolution, crispest display, and highest spec'd thermal core on the market for the price-point.

([Python-Micro TS35](#), [Python-Micro TS50](#))

- **AGM Victrix Thermal Imaging Clip-On**

Compact thermal imaging clip-on system allowing quick transformation of day optics into thermal imaging devices. Available in 2 sized objectives, mounts to front of any daytime scope. Superior clarity, versatility and reliability. High resolution display, stadiametric rangefinder, most versatile unit in the market.

- **AGM Secutor Thermal Scope**

Dedicated thermal scope built as a compact, rugged, tested device. Provides unmatched clarity and quality in 3 different sized objectives. Picture-in-picture, as well as built in digital zoom. Included stadiametric rangefinder, no other unit compares for the price point in the market.

([Secutor TS25](#), [Secutor TS50](#), [Secutor TS75](#))

- **AGM NVG-50 Night Vision Binocular/Goggle System**

Dual-channel night vision system with 51° field of view (FOV) providing true stereoscopic vision. Built for military or professional use, this commercially available unit is unmatched in function, use and quality.

([NVG-50](#))

- **AGM Asp TM-384 Thermal Handheld Monocular**

Equipped with a 384x288 infrared detector and a 1024x768 OLED display, this thermal monocular provides distance measurement, Wi-Fi hotspot and unmatched quality at its price point.

([Asp TM25-384](#), [Asp TM35-384](#))

“These units will provide our customers and users alike with an unmatched level of quality at a price-point to encourage the growth of shooting sports, and the thermal imaging and night vision markets as a whole” said Allen Harding, President of AGM Global Vision. With the continued growth of these industries, AGM’s vision is committed to excellence and becoming the only company you think of when you think optics. AGM will display their premium line of thermal imaging and night vision devices at booth #653. Dealers or Media members planning to attend the show who would like to schedule a meeting, please contact AGM at [info@agmglobalvision.com](mailto:info@agmglobalvision.com) or at 928.333.4300.
