

Rungu® at the world-famous 2020 SHOT show®

For the first time, Rungu attends the SHOT show to kick-off new year with its 2020 model lineup.

The preferred e-bike for hunters and outdoorsmen, Rungu designs and builds the MDV series of 3-wheeled, off-road e-bikes. Using two front wheels, the bike handles terrain impossible to navigate with a two-wheel e-bike and rivaling the capabilities of a Quad ATV. With carrying capacity of up to 350 lbs., Rungu MDV is the ideal off-road vehicle for hunters and outdoorsmen.

Rungu will appear at the Pop-Up Preview on Wednesday, January 22nd, 2020. Rungu staff will be at the booth to address press inquiries, discuss dealership opportunities, international distributorship and to address inquiries for individual purchases. Test rides will be available by appointment only on Thursday, January 23rd at an OHV trail system outside of Las Vegas. Attendees can find Rungu in booth #62126.
