

Our rifles are true marvels of modern engineering - they are innovative, last exceptionally long, are highly effective and ergonomic to use.

We have no entry-level rifles - all our rifles are designed and configured for top-level shooting. Our rifles are built on the principle that all but the barrel must be as light as possible, yet durable. The barrel's life expectancy is over 20 000 rounds, which is up to two times more than on regular barrels.

**TECHNICAL DATA**

<b>Barrel length</b>	18"
<b>Barrel Twist</b>	1:10
<b>Caliber</b>	7.62x51 NATO / 308 WIN
<b>Overall Length (min/max)</b>	93 cm with fully collased stock / 103 cm with fully opened stock
<b>Weight (w/o optics)</b>	3.9 kg
<b>Stock type</b>	Collapsible
<b>Handguard</b>	Free floating with MIL-STD M1913 Picatinny Accessory Rail
<b>Operation</b>	Gas-operated, rotating bolt (direct impingement)
<b>Forward Assist</b>	Yes
<b>Trigger Weight</b>	2.0 kg
<b>Fire Selector</b>	Safe, Semi-Automatic, Full Automatic
<b>Sling Attachment Points</b>	QD on both sides of the stock
<b>Muzzle Velocity (approx. With M80 ammunition)</b>	830 m/s
<b>Accuracy</b>	Sub-MOA @ 100 m (Nitrided Barrel) 2.5 MOA @ 300 m (Nitrided Barrel)
<b>Barrel Life</b>	20 000 rounds minimum
<b>Parts Life</b>	10 000 rounds minimum
<b>Other</b>	Stainless steel small parts, improved low mass bolt, long-life springs
