

United American Patriots' (uap.org) mission is to inform the President, Congress, and the public; fund legal representation; and support reintegration for U.S. Warriors wrongfully accused & unjustly convicted of "War Crimes," to preserve the "presumption of innocence" and to protect our Warriors Rights when faced with: Unlawful Command Influence (UCI), prosecutorial misconduct, and investigative abuse.

In 2019 alone, UAP was instrumental in supporting the following:

- | | |

Additionally, UAP assisted in creating, and now works closely with, the ***"Justice for Warriors Caucus,"*** a group of Congressmen dedicated to preserving our Warriors Rights.

Among the Warriors UAP agreed to support in 2019, and will continue to support, are three MARSOC Raiders, GySgt Josh Negron, GySgt Danny Draher, and Special Amphibious Reconnaissance Corpsman (SARC) Chief Eric Gilmet.

Attached is a one-page summary of UAP's position regarding these Warriors.

MARSOC RAIDERS

GYSGT JOSH NEGRON, GYSGT DANNY DRAHER, AND SARC CHIEF ERIC GILMET

-- DISMISSAL OR ACQUITTAL --

United American Patriots (uap.org) welcomes an opportunity work with the Marine Reconnaissance Foundation to help support dismissals or acquittals for three MARSOC Raiders who have been inappropriately charged with “manslaughter” and are facing unlawful command influence (UCI) after responding in self-defense during fistfight out front a bar.

ACTIONS

The three MARSOC Raiders were aggressively confronted by an inebriated civilian contractor while on authorized liberty in Erbil, Iraq. One of the Raiders acted in self-defense and neutralized the threat with one punch which rendered the belligerent contractor unconscious. Since the contractor was left lying in the street by his fellow contractors, the Raiders picked him up and took him back to base. (NOTE: All of the above was captured on video)

Out of concern for the unconscious inebriated contractor possibly asphyxiating on his own vomit, the Raiders watched over him through the night. When the contractor stopped breathing, the Raiders performed advanced lifesaving measures in an attempt to resuscitate him. Unfortunately, despite being medevaced to a hospital in Landstuhl, Germany, the contractor died four days later.

REACTION

Military prosecutors charged each Raider with “manslaughter” and the Commanding General is moving forward with Courts-Martial for each. Additionally, prior to these Raiders being charged, arraigned, or standing trial, the command removed the Raiders from their jobs, revoked their clearances, and, in overt and widespread official messaging to the command, used the accusations against these three Warriors as instruction on “How not to act while on liberty.”

ASSESSMENT

The prosecutors have inappropriately “overcharged” each of the Raiders with “manslaughter” and the CG’s actions are a clear example of Unlawful Command Influence (UCI) in that those who will ultimately be selected by and from the command to serve on the jury for the Court-Martial of these Raiders have all been “poisoned,” i.e., the “presumption of innocence” for these three Raiders has been destroyed.

UAP’s INTENT

UAP intends to support having the charges against each of these Warriors dismissed with prejudice prior to each Raider’s Court-Martial by informing the President, Congress, and the public about this situation and/or, if these cases go to trial, UAP intends to support each Warrior being acquitted, i.e., a judgment that each is not guilty, via fundraising activities which will pay for highly experienced and competent civilian legal representation for each of these MARSOC Raiders.
