

Newtek Merchant Solutions has made itself a major player in the merchant services industry. We have about 17,000 business merchant accounts and over billion dollars in processing volume spanning across multiple, unique industries.

We pride ourselves on our ability to partner with and serve small and medium sized businesses to deliver them the solutions they need to take their business to the next level. We market our services to small and medium sized businesses as we see the important role they serve in their communities and because we truly believe they are the backbone of our great nation.
