Fort Worth, Texas - VT<sup>2</sup>R AdTac 9 System enables training *without any risk to property or personnel* and may be used in conjunction firearms simulators, force-on-force, or both. Our hyper-immersive approach provides immediate transfer of knowledge to action because *you train like you fight*.

VT<sup>2</sup>R AdTac 9 System includes our AdTac 9mm closed barrel, IR laser, interactive target modules, and AdTac 9mm ammo. VT<sup>2</sup>R AdTac System *integrates with stand-alone targets, firearms simulators, and advanced training systems as an alternative to other force-on-force training*.

Some key advantages are as follows:

- √ Train in ANY location – indoors, outdoors, or both
- √ Full weapons recoil, smoke, and brass like live ammo
- √ Ammo – non-toxic, no lead, recyclable brass
- √ Safety – will not chamber live ammo, reduced noise
- √ Gear – glasses and foam ear inserts

***Build your own commercial range in any location, without all the expense of live fire – bring customers to your location or take a range to them.***

VT<sup>2</sup>R (<http://www.vt2r.com>) is a *veteran-owned small business* located in Fort Worth, TX. Jack is a retired USAF Chief Master Sergeant with 33 years of service and also operates a successful virtual gun range – Stockyards Gunfighter in Fort Worth (<http://www.stockyardsgunfighter.com>).
