Lansky Sharpeners Introduces the Diamond Pen

Buffalo, NY – Lansky Sharpeners, the most recognized name in knife sharpening worldwide, has added to its ever-expanding line of sharpeners with the release of the Diamond Pen.

The Diamond Pen is a retractable 3-sided, 600 grit diamond sharpening rod, perfect for fast reconditioning of pocket knives, and sharpening serrated blades and fish hooks. The 3-sided sharpening rod gives users the ability to sharpen serrations of various sizes. When not in use, the sharpening rod stores securely within the lightweight plastic casing.

Cleaning the all-new Diamond Pen is as simple as rinsing with a bit of water and wiping with a dry rag, or a soft-bristled nylon brush.

Features include:

- 3-sided sharpening surface
- Retractable 600 grit medium diamond rod
- Lightweight plastic casing
- Secure-hold clip on cap

The Diamond Pen makes sharpening on the go easy. Just a few swipes will touch up your blade. A few more swipes and you can recondition a damaged blade.

Length: 5" closed, extends to 8.5" when open
MSRP: \$22.99

About the company:

Lansky Sharpeners is the most recognized name in knife-sharpening systems worldwide. In addition to their legendary Controlled Angle Sharpening System, they continue to develop new sharpening technologies and innovations for hunting, outdoor sports, kitchen use, as well as the workshop. <https://lansky.com>.
