

Helikon-Tex at SHOT Show 2020

Helikon-Tex will have a booth (BOOTH 7605 at Level 1) at SHOT Show 2020. It'll be even bigger than last year (taking up 18 square meters) and full of brand new tactical and outdoor gear most of which will be presented to public for the very first time.

Brand new products show for the first time at SHOT Show 2020:

Helikon-Tex Covert M-65 Jacket

The M-65 jacket is an instantly recognizable and iconic garment. Born in the Vietnam War era, it soon became a cult classic. Helikon-Tex has reinvented this great garment - creating a superb urban jacket. Made of durable DuraCanvas® fabric, it protects against light rain and wind - keeping you warm on those colder days.

Helikon-Tex Competition MultiGun Rig®

Competition shooting is getting more and more popular. During any match, success is based on multiple factors, as not only is your fitness important, but also your weapon and most importantly - your gear. This is why Helikon-Tex have created a Competition MultiGun Rig for shooters. To make it as versatile as possible Helikon-Tex based it on the gun belt with an additional modular belt sleeve and micro chest rig. All are fully scalable and configurable, allowing you to create the exact platform that you need.

Helikon-Tex MCDU Combat Shirt® - NyCo Ripstop

MCDU is Helikon-Tex's approach to combat uniforms for more dynamic operations. The torso of this shirt is made of highly breathable, lightweight TopCool fabric, while the sleeves and stand-up collar are made of a durable NYCO mix. Bicep zippered pockets will hold most small essentials like a target photo or a GPS.

Helikon-Tex Pilgrim Anorak Jacket® - DuraCanvas®

Helikon-Tex have designed the Pilgrim Anorak Jacket® for demanding outdoor activities in dynamically changing weather conditions. Based on zipped "kangaroo" construction, which has proven itself for decades - it has been clearly refined to meet the expectations of modern travelers, while still hitting the aesthetics of the "old guard".

Helikon-Tex Ambassadors at SHOT Show 2020

You will be able to discuss all new gear with Helikon-Tex Ambassadors e.g. Dave Canterbury (Bushcraft & Survival expert), Maciej Stebel (Deputy Sheriff) who will be present at Helikon-Tex booth 7605 each day of the SHOT show at 10:00-11:30 AM and 2:00-3:30 PM.

About Helikon-Tex

For over a decade, since Helikon-Tex was established, our business activity was mainly concentrated on military surplus sales. In 1999 we set out new development direction and decided to start our own military and paramilitary clothing production. We built our strength and gained experience through creating our own Research & Development department, which consisted of shooting experts and former special forces soldiers, who designed modern and specialized solutions that the military industry could not produce. And therefore, step by step, applying a lot of passion, we turned into an ambitious manufacturer of tactical and outdoor equipment. We have our finger on the shooter's pulse, and we appreciate innovations and introduce new product lines. Our clients receive the highest quality tactical equipment at a reasonable price.
