**TUFFY SECURITY PRODUCTS DEBUTS ATLAS VAULT LOCKABLE DRAWER
AT THE SHOT SHOW**

CORTEZ, Colo. – Tuffy Security Products will introduce its new Atlas Vault Lockbox, Model 364-01 for outdoor sportsmen in booth #448 during The SHOT Show taking place January 21-24 at the Sands Expo Center, Las Vegas, NV. This streamlined lockable drawer with a built-in cargo carrier on top measures 40”W x 20”L x 10”H and is manufactured of 16-gauge steel with a textured powder coated finish for long lasting durability. The single pull-out drawer is rated to hold contents of up to 100 pounds and has heavy duty stainless steel roller bearings for smooth, reliable operation. Items can also be stored on its top deck and secured to a gear retention and tie down rail that goes around the entire upper box deck. The top deck also has a tie-down weight capacity of 100 pounds, for a total of 200 pound carrying weight capacity. Both the drawer and the top deck have a carpet lining. It locks with an electronic 10 digit combination lock that is set by the owner to any key code that comes standard with a key override. The knob has a clutch mechanism for additional security.

Atlas Vault mounts directly to the floor of any pickup or SUV with an easy to use steel mounting kit. It also comes with risers so the vault can be lifted up 5-8” from the floor’s surface to provide additional storage area underneath.

“Our new Atlas Vault Lockable Drawer is ideal for those needing to secure and organize their guns and ammunition as well as any other valuable items,” said Chip Olson, Tuffy Security Products Marketing Manager. “We invite SHOT Show attendees

to stop by our booth #448 to learn about our entire line of drawers, enclosures and lockboxes offering superior protection against theft while increasing gear accessibility for carrying and storing valuable items.”
