Hello my name is Jeff Niklaus, Founder of Compliant Technologies (Booth# 6601). We are a 100% veteran owned company and our mission statement is simply this: **"We exist to benefit society by providing non-lethal alternatives to those who selflessly serve."**

Our team is made up of past and present Military, Law Enforcement and Corrections professionals and we are honored to serve those who put others first. We are profoundly grateful for the sacrifices our men and women in uniform and their families make every day to protect our nation and uphold the Rule of Law. Without these wonderful public servants the maintaining of our Republic would not be possible so we are honored anytime an agency trusts us to come along side and partner with them in their very demanding and often thankless mission.

With our twist on Conducted Electrical Weapon technology (CEWs) our goal is to provide Law Enforcement and Corrections tools that are totally non-lethal, non-injurious and humane, yet extremely effective with very low optics. Our flagship product, The G.L.O.V.E. stands for **G**.enerated **L**.ow **O**.utput **V**.oltage **E**.mitter. **We simply call it the "Force Multiplier"**. It's available from initial officer presence all the way through lethal force if needed with no risk of feedback to any officer involved. The G.L.O.V.E. is also an excellent tool for weapons retention and allows for seamless weapons transition. It enables our public servants in many instances to rapidly, effectively, and, at times, unassumingly de-escalate a situation and bring individuals into custody or compliance safely with much less effort. Here's a link to the real world testimony of CPL Chuck Werkheiser a police officer for Lower Saucon Township, PA. <https://youtu.be/Tgumip5DVpY>

Compliant Technologies will be at booth #6601. Please stop by and we'll be glad to show you our complete product line where we'll be doing demonstrations every 15 minutes. See for yourself how safely and effectively our tools perform. While there ask us about our 10-10 Show Special.

In the meantime, please check out our website www.complianttechnologies.net. From our home page you can link to our Products, Media Kit, References, and News Releases. You can also enter our Facebook Page and YouTube Channel where there are many demos, product descriptions and interviews. If you have any questions prior to the conference or want to arrange for a briefing while attending, please feel free to reach out to us. Our contact phone number is (859) 447-0576 or email us at info@complianttechnologies.net

I think it's important to know that Compliant Technologies wasn't necessarily started to make a profit, but to **make a difference** and that's one reason why our products aren't sold to the public. So make sure you stop by our booth and you'll understand why.

I and the rest of the team at Compliant Technologies want to thank you for your time and look forward to seeing you at Shot Show 2021 booth #6601! We hope you'll realize **"we have the tools you can't afford to be without"** and that you and your agency will join the ranks of our satisfied customers as **we provide Atypical Tools for an Atypical World!**

God Bless, we'll see you soon!

Jeff
