KENT[®] CARTRIDGE ANNOUNCES BISMUTH WATERFOWL LINE EXTENSIONS

Kent Cartridge, producers of high-quality shotshells for hunters and competitive shooters, announces Bismuth Waterfowl line extensions for 2021, further adding to its versatile high performance non-toxic waterfowl line. These new loads feature Kent's proprietary 9.6g/cc bismuth in #5 shot, providing increased pellet count in two of the line's most popular loads. Both loads will be available for shipment in early fall of 2021.
